

Cooperation in the nine experimental treatments of Dvorak & Fehrler (2024). Top row: *perfect monitoring*, middle row: *public monitoring*, bottom row: *private monitoring*. Left column: *no communication*, middle column: *pre-play communication*, right column: *repeated communication*. Rows within a square represent interactions between two participants. Black pixels: mutual cooperation, grey pixels: one-sided cooperation, white pixel: mutual defection. Supergames 1-7 ordered from left to right within each square.
